EVENT PHILOSOPHY

The Regional Synchronized Skating Championships are part of the Skate Canada qualifying system. These events are planned, managed, and executed by Skate Canada Sections on a rotational basis, in conjunction with a local volunteer organizing team.

The purpose of this competition is to provide a developmental and competitive experience for synchronized skating teams which allows them the opportunity to qualify for Skate Canada events in Novice, Intermediate, Open, Junior, and Senior categories. The top team in each of the five qualifying categories in every Region may advance. Additional entries are allotted to Regions based on their teams' placement at last year's National Championships and Regional membership sizes.

In selecting host sites for these Championships, every attempt is made to move the event across each region in a regular cycle, to balance the costs faced by participants from year to year as much as possible, and to allow synchronized skating to be presented in various communities in each section.

In addition to experiencing the challenges and personal growth involved in competing at this level, one of the features of this competitive system is to allow skaters an opportunity to experience the cultural diversity of Canada through exploration of the area holding the championships.

The focus for skaters at this event is not only on qualifying, but on the whole experience: self-satisfaction in achieving competitive goals and meeting competitors from across the Region and experiencing the camaraderie of traveling as part of a team.

GENERAL INFORMATION

The Atlantic Regional Synchronized Skating Championships will be conducted in accordance with Skate Canada rules and regulations for qualifying Synchronized Skating events. The Local Organizing Committee for this event is the Mount Pearl-Paradise Skating Club of the Newfoundland and Labrador Section.

GENERAL REGULATIONS

RULES/TECHNICAL REQUIREMENTS

All events will follow the Synchronized Skating Eligibilities and Technical Requirements as outlined by Skate Canada. Teams are responsible to check the Skate Canada Info Centre for rule updates and changes.

ELIGIBILITY

The Atlantic Regional Synchronized Skating Championships is open to all teams from New Brunswick, Nova Scotia, Prince Edward Island and Newfoundland and Labrador sections, registered with Skate Canada, and meeting the requirements outlined in the description of categories to be held. There is no qualification process to enter the Event.

SINGLE ENTRY TEAMS (Atlantic Regional Championships)

Should a category only have one entry, the team will be given the option to not attend the Regional Championships and will qualify directly to the Synchronized Skating Championships. Single entries will be notified no later than one week following the entry submission deadline and will be given the option to skate an exhibition and be assessed/monitored by a full panel of officials. Detail sheets by official will be provided following the performance in this case. If two or more entries have registered, the event will take place regardless of qualifying entry quotas.

PROBLEMS DURING A PERFORMANCE

The Technical Representative or his/her designate (ice level referee) may ask a team alternate to go on the ice during a performance to retrieve any objects that have dropped on to the ice (hair accessories, etc.) so that a performance does not have to be interrupted and so that there is no danger to the skaters. To this end, it is requested that each team, where possible, have an alternate dressed with skates on and skate guards off, available at the entrance area during the team's performance.

DRAWS/START ORDERS

A random draw will be used for the first portion of all events and all non-qualifying events. The starting order for the first portion of the event will be available a minimum of 7 days prior to the start of the competition. The drawn starting orders (initial and subsequent) shall also apply for the official practice ice for all parts of the competition (qualifying events only). The start orders for subsequent events for

qualifying categories will be in reverse order of the results of the preceding segment. Start Orders will be posted as soon as possible following the results of the first segment.
